

## ProAssign ACT™ Impact

### Executive & Team Facilitation & Coaching

Organisations who want to get the best out of their people are looking to new and innovative ways to improve their performance with existing resources, adding value to services that they offer and aiming to secure a greater return-on-investment.

Organisations don't fail. It is people that affect the outcomes and the burden of failure, often unforeseen and dramatic, impacts on both investors and customers. Effective performance is an expectation of all individuals in an organisation and often this requires embracing change, not only by individuals and teams but also in the culture of the organisation.

ProAssign ACT™ Impact is a unique programme of training and coaching that focusses on creating lasting change through changing mind-set, helping individuals, teams and organisations to be more effective in developing sustainable performance and a more certain future.
